

# Rockland™

### *Color, color, color.*

When it comes to baggage claim, stand out in the carousel of black. "Black is so blasé," Peter Cobb, co-founder of e-bags, says. "People are now looking at luggage in a fashion sense." Vogue-sters have a slew of choices: Japanese blossom print or camouflage, lime green or hot pink, stripes or spots.

According to the 2011 Consumer Luggage Report from Suitcase.com, neutral colors and black are still popular options, but consumers are being drawn in a different direction, toward patterns and unique designs. They are looking for something that matches their style and is also highly recognizable coming off the turnstile and navigating through airports.

Rockland™ Luggage offers a wide range of durable, fashionable, eye-catching and affordable luggage for the stylish person on-the-go. Rockland™ luggage can be easily recognized at baggage claim.
