Frequently Asked Questions

Q: What is included with my KettlePizza?

A: All KettlePizza packages includes a 304 grade stainless-steel insert, wood handles, temperature gauge and 14" aluminum pizza pan. KP Deluxe kit also includes a wood peel and 15" high-temperature cordierite pizza stone. A KP Deluxe USA kit also includes a handmade aluminum peel with bottle-opener end and stainless-steel S-hook, 15" high-temp cordierite pizza stone and pizza pan spinners.

Q: What size grill does KettlePizza fit?

A: KettlePizza insert adjusts to fit 18.5" and 22.5" grills. KettlePizza can also fit a 26.75" kettle grill by adding our stainless steel expansion plate.

Q: Is the grill included?

A: No.

Q: What is the cooking time for a pizza?

A: 5-6 minutes. Cooking times may vary slightly by the size of the pizza and toppings on the pizza.

Q: How long do I have to wait before I can add my pizza to the KettlePizza after getting the coals and wood fire started?

A: Once the temperature gauge on the KettlePizza reaches 700 degrees you are ready to add your pizza.

Q: Can I make a frozen pizza in the KettlePizza?

A: YES! Just keep a closer eye on the pizza during cooking as temps inside the KettlePizza will be higher than an indoor oven.
