KitchenGrips.

When the right tools are in the kitchen, cooking goes from being an effort to being effortless. Today's home chefs demand tools that deliver consistent, superior performance with every use. These cooking tools have been created to perform each specific task with precision and ease. From graters and rasps to peels and presses, there is a kitchen package to stir up some excitement and make cooking a pleasure. Choose from cookware, bakeware, bar service, kitchen tools, knives and accessories for home gourmets to professional chefs. Like a treasured family recipe, handed down from generation to generation, these packages have been selected to perform for years to come.

Cuisipro.

Cuisipro makes tools for cooks who have an eye for design and a passion for quality. From graters and rasps to peels and presses, Cuisipro has a kitchen tool to fit any situation. Tools are designed to tackle specific tasks with precision and ease. The design is refined and timeless - with simple elegance. All Cuisipro items are backed by an uncompromising 25 year warranty.

Browne

Browne has been perfecting high-quality kitchenwares for over 60 years and can be found in 40 countries. Browne currently holds several patents and has been recognized with multiple awards for product innovation and design. Items include baking racks and pans, bar service and kitchen tools. Their mission is to design, create and market value-added products.

BERARD 1892 FRANCE

Berard France strives to create beautiful, elegant and high quality wood products using wood obtained from known, legal and well-managed timber sources. Their artisans painstakingly handcraft utensils and serveware from very old olive wood trees which no longer bear fruit. The production is organized so that 100% of the wood is used. The olive wood used in these pieces comes directly from the Mediterranean and is known for its hard texture, beautiful veined polish and golden-yellow coloring. These stylish pieces will appeal to any participant that values craftsmanship as well as practicality.

KitchenGrips®

Kitchen Grips® is an undisputed favorite among professional and amateur chefs. Its popular collection of kitchen gloves, pot grabbers, holders and trivets are made of a unique material called FLXaPrene™. This material is not only heat and stain-resistant but it is also flexible and anti-microbial. This patented product can also withstand temperatures ranging from -134°F to 500°F.
