Comfort - All Year Long

Vornado was founded on the premise that comfort should be constant, bucking the trends of oscillation and utilitarian design. That still holds true today with a broad range of products that enhance efficiency and keep everyone comfortable all year long.

VFAN Mini Classic Vintage Air Circulator

Mini size. Big style. The VFAN Mini Classic brings together sturdy metal construction with authentic Vornado VFAN styling. Personal comfort in the form of their signature Vortex Action, 2 speed settings, a full action pivot head for multi-directional airflow and a 5-year limited warranty. Style. Class. Performance. VFAN Mini – Everything you expect from Vornado, only smaller.

Pivot Personal Air Circulator

The Pivot is the newest addition to the Vornado line of personal circulators. Designed with a nod to our roots in aviation, the Pivot looks something akin to a stylized jet engine. At 6" tall, the Pivot is the perfect size to adorn a desk or nightstand and striking enough to command some serious envy. With 3 speed manual controls, a pivoting axis to direct the air where you need it and a 3-year satisfaction guarantee, you can easily keep cool and comfortable in style.

VFAN Alchemy

In 1945, the uniquely powerful "Vortex Tornado" propulsion system became the fan that changed the way America kept comfortable. It was in this year that the first Vornado Fan rolled into production, and became the first major evolution in fan technology. It was an innovation so grand, even today it is regarded as the most powerful and effective air circulation machine ever built.

Silver Swan Alchemy

The moderne design movement arose as a refreshing change from the eclectic and heavily embellished sensibilities that preceded it. Now, forms could embrace movement, strength, and sheer elegance. Swan Alchemy is a pure and high quality distillation of the values of Art Deco & Art Moderne — and unlike throwback replicas, Silver Swan is constructed of heirloom-quality materials that endure in form and function.

EVDC300 Energy Smart Evaporative Humidifier

The central figure in our new evaporative humidifier family, the EVDC300 delivers whole-room humidification driven by an Energy Smart DC motor. With more power than a standard Vornado, it delivers whole-room humidity circulation using 90% less energy. Pressing the leaf button saves even more energy — automatically turning off if it runs out of water. The minimalistic design features a clear, easy-fill 1-gallon tank that is simple to use and maintain, with a low-water indicator that shows when it's time to refill.
